

Cortex Dumbbell Handle

Knurled printed sleeve replacing a worn factory grip. Prints in your exact bar diameter, no adapters.

Infill	55%	Material	PETG-CF
Rated	950N shear	Weight	180g sleeve
Print time	3.5 hr	Dimensions	25–32mm bore, made to order
Price	\$34		

How it's built

Send us your bar diameter and we print the sleeve to a 0.1mm press fit. The knurl pattern is printed, not knurled after the fact, so it will not round off the way a cheap rubber sleeve does.

Customer notes

M. Suzuki — ★★★★★

Ordered to my exact bar diameter and it was a perfect press fit. No adapters, no play.

T. Reyes — ★★★★★

Knurl actually holds up. My old rubber sleeve was smooth after two months, this one still bites.
